COMPANY PROFILE 2023 →

DX3

Design > Develop > Deploy

Viewmax Interactive Media is a digital media consultancy agency based in South Africa, specialising in Corporate Identity Design, Online Application Development and Domain Administration.

Design

We have designed various campaigns for non-profit organisations, private companies and government departments alike. Our design processes help guide the client to create a design language that suites their organisation best. We have delivered services ranging from logo development, campaign designs, poster designs, social media branding and branding designs.

Develop

With technological gains within the Fourth Industrial Revolution space, we at Viewmax Interactive Media provide our clients with the best technologies that work for them. Ranging from web based applications, interactive digital solutions and mobile applications. Our work has helped many of our clients to deploy solutions on the platforms of their choosing.

Deploy

Once we have developed your solution, we will help you get it to market and reach your target audience. Using BIG DATA tools, we can track and improve on your deployment, making you stay ahead of the rest of your competition with campaign tracking, analytics, insights and much more.
